**Call for Posters**

The TRB Committee on Aviation System Planning is pleased to announce the opportunity for a limited number of participants to present their research during a Poster Session on “Current Issues in Aviation System Planning” at the upcoming 10th National Aviation System Planning Symposium (NASPS). The Symposium will be held at the Lakefront Anchorage Hotel in Anchorage, Alaska on May 20-23, 2018.

Detailed information on the NASPS may be found at <http://www.2018nasps.com>.

The poster session is scheduled for Tuesday May 22, 2018 from 12:45 pm to 2:00 pm. Lunch for attendees that day will be provided in the same room with the presenters to maximize the time available to view the posters and engage in discussions.

Presenters will need to bring a poster of up to 4' x 6' or 3' x 8' in size, printed on heavyweight poster paper or similar material. Arrangements will be made for presenters who wish to bring a laptop for display with their poster. Posters will be attached to one or two 3' x 4' foam boards, and set up on one or two easels. Foam boards, clips, tape, and easels will be provided.

Interested presenters should submit a proposal including the following:

- Name and affiliation of presenter
- Author(s) and title
- Sponsoring agency of the research (if any)
- A brief abstract limited to a maximum of 250 words. This abstract should describe the research and explain its relevance to current issues in national aviation system planning.

Please submit your proposal to: Dr. David A. Byers, 10th NASPS Poster Session Organizer, [dabyers@Quadrex.aero](mailto:dabyers@Quadrex.aero), as soon as possible.

Notification of selection will be made promptly thereafter. Presenters of selected proposals will be given the opportunity to attend the NASPS at the speaker/moderator registration rate.
